

## CURRICULUM

### 1 COMMERCIAL AREA

In what concerns the commercial area, sales of medium voltage equipment till 36 KV (reinforced concrete and metal compact transformer stations, air processing stations, medium and low voltage frames and distribution transformers de), MATELFE has got partners like PREPHOR, FELIZ, ABB, ORMAZABAL, SCHREDER, VIDROPOL and NORTÉCNICA. Its main clients are the major manufacturers of medium voltage frames and distribution transformers, electrical equipment installers, in the context of urbanization, industry and tourism, energy independent producers (wind and photovoltaic) and energy distributors (EDP D), becoming market leader in this segment (more than 200 transformer stations sold per year since 2011 in Portugal).

Note that what regards EDP D, it has got 178 specifications of approved monobloc interior manoeuvre covering all their manufacturers, in what concerns medium voltage boards and distribution transformers. As to the company's internationalization for African and Latin America growing markets MATELFE has developed special monoblocs for transforming stations till 36 KV. They are made of reinforced concrete and metal (covering in sandwich panel), from exterior manoeuvre, which ensure a good performance in those markets, because of their dimensions, weight and thematic and electrical features.

### 2 ELECTRICITY WORKS CARRIED OUT

It what concerns works, MATELFE main clients are the major national construction companies and institutional companies, being responsible for the electrification of several highways, primary and secondary routes. We participate in multiple urban renewal works, creation of industrial hubs carried out by local authorities

The national construction companies and institutional companies which are our clients:
